

Go the distance.

Supporting adults with training for employment.

NCFE values the importance of lifelong learning, particularly in the current climate, as those affected by the pandemic are being forced to look at new career paths or upskilling in new areas that are growing significantly.

We're taking focused action to support adult learners and help them to build the confidence they need to forge new career paths and find, stay and progress in employment.

Join our webinar

Supporting Adults with Training for Employment

Tuesday 1 December, 12-12.45pm

NCFE is determined to support adult learners to retrain and reskill during the current climate.

Join our webinar, in partnership with Careermap, as we discuss the importance of lifelong learning, the impact of the pandemic on adult learners, and solutions for supporting those hard to reach adult learners onto their next steps.
